

**Concrete Promotion Council of the Ozarks
Presents
Consolidation of Concrete by Internal Vibration
Speaker
Luke M. Snell, P.E.,
Concrete Consultant and Emeritus Professor of Construction, SIUE**

**September 19, 2019
5:30 pm to 7:30 pm
At
Big Whiskey's
1440 W. Republic Road, Springfield, MO 65807**

Join us for dinner and learn about the proper techniques on the internal vibration of concrete and how to know you have achieved it before the forms are removed.

One of the big challenges on the construction project is to get the concrete adequately vibrated. On many projects, the person vibrating the concrete is poorly trained and does not realize that his/her job is one of the most important to achieve a well consolidated concrete. This has become more critical now that we can place concrete much faster than we can consolidate it.

Who Should Attend: Architects, Engineers, Contractors, Developers, Business Owners, City Officials

Cost to Participants: \$20/Members \$25/Non-members

Continuing Education Credits: 1 PDH
