

Join Us on Veterans Day 2021

11-11-21

11:00 am

2125 S. Empire Avenue

Joplin, MO 64804

Join us on Veterans Day for a fun-filled event. A United States Veteran will be introduced as the recipient of a new Habitat for Humanity home built with insulated concrete forms.

After the introductions we will have someone demonstrate how the block is stacked, answer questions and give you the opportunity to stack the block. They will explain the many benefits of using insulated concrete forms:

- Storm and Fire Resilient
- Continuous Insulation
- Consistent Performance - Lower Energy Bills
- Made from Recycled Material
- Noise Reduction
- Fast, Efficient and Affordable
- Protects against termites and mold

This is a great event to understand the ease of building with insulated concrete forms and is for a wonderful cause.

This event is free and no registration is necessary

Contact Amy Allen info@cpcoz.com or 417-865-8282 for more information
