

## Join Us on July 12th to Tour an ICF Home Under Construction

**7-12-22**

**10:00 am**

**4860 U Highway, Rogersville, MO 65742**

Join us onsite to tour an ICF (insulated concrete form) home and workshop under construction. David Samples with ICF Walls of the Ozarks will be onsite to explain the construction process and to answer questions.

He will explain the many benefits of using insulated concrete forms:

- Storm and Fire Resilient
- Continuous Insulation
- Consistent Performance - Lower Energy Bills
- Noise Reduction
- Fast, Efficient and Affordable
- Potential Insurance Reduction
- Protects Against Termites and Mold
- Sustainable
- Carbon Reduction

This is a great event to understand the value of building with insulated concrete forms. Who should attend: Architects, Engineers, Contractors, Inspectors, Designers, Business Owners, Developers and Home Owners

Credit: 1 PDH offered

This event is **free, but registration is required**

Hard hat, closed toe shoes and long pants are required
