

**Concrete Promotion Council of the Ozarks  
Presents  
The Importance of Finishing & Curing with PLC  
And Hot Weather Concrete  
Speaker  
Megan Dangel, P.E., LEED AP  
Technical Services Engineer  
Central Plains Cement Company  
April 11, 2024  
11:30 am - 1:00 pm  
The Pitch Pizza & Pub  
2924 E. Sunshine St, Springfield, MO 65804**

Join us for lunch and learn the importance of finishing & curing with PLC and the best application for hot weather concrete.

**Learning Objectives:**

Concrete is the most versatile building material in the world, but it is not without its problems. As the concrete industry continues to evolve with emerging technologies and changing materials, refocusing on proper concrete best practices will help minimize those problems. During this presentation, attendees will receive a better understanding of:

- Current materials
- How they perform in the field
- How going back to the basics will combat numerous issues seen in the industry
- How to Choose the best application for curing concrete in hot weather
- Temperature considerations for products
- Differentiate between curing, and curing and sealing

**Who should attend:** Architects, Engineers, Contractors, Developers, Building Owners, Product Manufacturers and City Officials

**Cost to participants:** \$25 Member \$30 Non-member

**Continuing Education Credit:** There is one PDH available for this presentation

**To register contact:** Amy Allen, CPCOZ at [info@cpcoz.com](mailto:info@cpcoz.com) or leave a message at 417-865-8282
